## 2 ORDERED TO BE ARRESTED REPORT

Elmer Snoddy Appears Before Army  
Board and D. A. Bromm Writes  
From Wichita, Kan.

### NO ATTEMPT TO EVADE DRAFT

Many Questionnaires Returned by  
District Board For Additional  
Information

A complete list of registrants classified by the army selection board yesterday, together with those who appealed to the district board or who had industrial or agricultural claims transferred to the district board will be found on page three of today's issue.

Two of the nine registrants who Thursday were ordered arrested by the county army selection board for failure to return their questionnaires have reported to the board that they have never received their questionnaires and are ready to answer the questions.

Elmer Snoddy, who registered while living on a Rushville rural route, but who did not leave his change of address with the board and had not received a questionnaire, reported to the board when he learned that his arrest had been ordered. David A. Bromm of New York, who was working on the new elevator at New Salem when he registered, has written the board from Wichita, Kansas, inquiring about his present status.

Apparently neither of these men tried to evade the draft. Snoddy's questionnaire was returned to the board with the information that his whereabouts were unknown. It was then the board decided to order his arrest. It is understood Snoddy has been living near Carlsburg and neglected to inform the board of his present address. As soon as he learned he was wanted he came to the board.

Bromm's letter, which was received today, gives his address as 1806 Bluff street, Wichita, Kansas, and makes inquiry about his status. He evidently had no intention of attempting to evade being drafted because in his letter he mentions both his order and serial number, showing that he had preserved the records of his case and was expecting to be called. Bromm inquired about a questionnaire. One will be mailed to him by the board.

Floyd H. Miner, formerly of Carthage, who was placed in class one, has asked that his examination be transferred to Paoli, Ind., where he is teaching school, and the board has granted his request.

## 2 Brothers Want To Go To War But One Has To Sacrifice: Stays At Home

One bright spot in the draft that has come to the attention of the county army selection board is the case of two brothers—Donald H. and George L. Feaster—who argued the question of going to war. It was refreshing to the board to find two brothers, one of whom should stay at home to support infirm parents, debating about who should have the privilege of serving their country. Both wanted to go and each thought he was the one who should go.

They finally compromised by George deciding to stay at home because he makes more money and his work is steadier. Both could claim deferred classification because of infirm parents who are dependent upon them. The argument is generally the other way—how to get out of going to war, not how to get to war.

## REVIVAL TO BE POSTPONED

Fuel Shortage Cause For U. P.  
Church Calling off Meetings

The revival services which were to have been held at the United Presbyterian church during the next two weeks have been postponed indefinitely on account of the fuel shortage. The decision was made at a meeting of the official board held last evening. Dr. J. F. Hill of the Reed Memorial United Presbyterian church at Richmond had been engaged as evangelist for the services. The supply of coal at the church is enough for about one week's meetings and in the face of the situation with no prospects of getting any more, the meetings were postponed.

## FLAG WITH 32 STARS WILL BE PRESENTED

Ladies Aid Society of First Presbyterian Church Will Present  
Flag Tomorrow Evening

### S. L. TRABUE WILL SPEAK

A special patriotic service will be given at the First Presbyterian church tomorrow evening honoring the presentation of the service flag, containing 32 stars for as many young men from the church and Sunday school who have "joined the colors." The service will begin at 7 o'clock and promises to be interesting as well as inspiring. The flag has been made by the Ladies Aid society of the church who will be represented by Mrs. A. L. Gary in presenting it. S. L. Trabue will speak for the church in accepting the flag. One of the boys who is honored by a star on the flag will be at the meeting and speak in behalf of the young men in the service.

The following program will be rendered:

Talk by the Rev. D. Ira Lambert.

Reading, "The Service Flag," by Paul Spivey.

Presentation of the flag by Mrs. Gary.

Acceptance by S. L. Trabue.

Short talk by young man in service.

Patriotic music.

## TWO CARLOADS OF COAL ARRIVE TODAY

Weather Man Making Good His  
Promise of Warmer Weather  
Helps to Relieve Situation

### MERCURY MOUNTS IN TUBE

The arrival of two carloads of coal in the city today and the fulfillment of the promise of the weather man for warmer weather has greatly relieved the situation which was growing very serious.

Dan Matlock received a car load of hard coal early this morning and it was sold in a very short time. J. P. Frazee received a car of Indiana coal with which he was endeavoring to fill some of the back orders.

Last night's lowest temperature was eleven above zero and today the thermometer went the highest that it has for a number of days. Continued warm weather is promised in today's prediction and indications are for rain or snow tonight or tomorrow.

### LOCAL MAN'S FATHER DIES

News of the death of W. A. Polk of Oaktown, father of E. E. Polk of this city, has been received here. The funeral services were conducted yesterday and the death occurred on Tuesday. Mr. Polk was president of the Oaktown bank. He died at the age of 85 and had been ill for a long time with cancer. E. E. Polk of this city was called there on account of the death.

## NEW WAR STUDIES IN SCHOOLS HERE

Course of Studies Issued by Government on National Life Cover  
Eight Months Lessons

### ARE FOUND VERY PRACTICAL

Students From Sixth Grade to Senior Class of High School Follow Government Suggestion

The series of lessons on "Community and National Life," published by the government are being studied by the pupils of the Rushville schools. These lessons are issued monthly in pamphlet form by the United States Bureau of Education, Department of the Interior and cover a wide scope of the national life, geography and various forms of education that are not covered in school books. Twenty-five of the pamphlets, which cost 3 cents apiece are purchased by the local schools monthly and studied in connection with the history courses. Superintendent J. H. Scholl stated today that the pupils were interested in studying America's welfare in this way and he spoke highly of it.

The December series of lessons covers "Machine Industry and Community Life." The October and November numbers dealt with the organization of modern industrial life as compared with the pioneer days, the effect of war on commerce in nitrate, the war and aeroplanes production and wise consumption and similar topics. The idea of teaching the principles of conservation underlying successful prosecution of the war originated with the Food Administration but the plan has now been taken over by the Bureau of Education. Professor Charles H. Judd of the University of Chicago with the assistance of a corps of writers in the various fields is preparing these government texts for the pupils in the elementary and high schools.

The lessons are being taken up here by the pupils from the sixth grade to the senior class of high school. Parents as well as pupils may be interested in the December lessons. The older high school students will learn of the rise of the machine industry from the day of the hand loom and the "spinning jenny" through the changes wrought by the industrial revolution, to the large scale production, world markets and social problems of modern history.

In the section intended for the first class of high school and the upper grades of the elementary school, the subject, "How Men Made Heat to Work," will be studied. The lesson reviews the use of animals, wind and water as sources of power. Telephones and telegraphs are described as "machines for overcoming space," and their part in modern industry is emphasized. Under the section "the impersonality of modern life," the lessons compare modern city life with the more intimate life of the small village, analyze the large business corporation of the present day, and suggest the need of new standards of conduct and new points of contact between human beings.

For pupils in the intermediate grades of the elementary schools, "inventions" is the subject taken up. The roll of inventions is called from the simple traps and weapons of primitive men to the printing and telegraphy of today. Other lessons in this section have to do with the "effects of machinery on rural life."

The lessons are sold at cost by the government to the schools and will consist of monthly editions for eight months until and through May.

## NEVER FAILS TO ANSWER PRAYERS

God Will Grant What is Asked If  
Plea is in True Filial Spirit,  
The Rev. C. S. Black Says.

### WEEK-OF-PRAYER SERVICES

Ministerial Association Sends Letter  
Today to President. Urging  
Prohibition Support.

"There is no such a thing as divine failure to answer prayers. Ask what ye will and ye shall receive if you ask in the true filial spirit," stated the Rev. C. S. Black last evening at the United Presbyterian church at the week-of-prayer service. The minister chose for his text, "If ye abide in me and my words abide in you, ask whatsoever you will and it shall be done unto you," and for his theme, "The boundless prayer of faith." The excellent sermon showed the opportunities that are offered in prayer that are being missed today by Christians and the boundlessness of God's power if asked through prayer.

The best crowd of the week attended last night's meeting which was the last of the week-of-prayer services which are held annually. The Rev. J. T. Aiken presided over the meeting, the Rev. C. J. Bunnell read the scripture reference and the Rev. D. Ira Lambert led in prayer. Captain Dove of the Volunteers of America who is here from Indianapolis raising funds for his work made a short but interesting talk on the good that his army was accomplishing. About 45 per cent of the people they helped, he stated, come from the small towns and for that reason they appeal to the small towns for financial aid.

"This promise of God in the scripture," stated the Rev. Mr. Black after reading the scripture reference, "shows that we have a draft on the bank of the kingdom of God signed by the King Himself. We have never yet begun to use it and if we had done so we would not complain about the dearth of spiritual life. God intends for us to be strong and make many appeals to him."

"This promise is only made to God's children," he continued, "an unbeliever cannot pray 'my Father,' but every man and sinner can pray, 'God be merciful unto me a sinner.' It was the prayer of the publican and God heard him. The world knows whether or not his words abide in you by your life but as to your abiding in Him, no one except yourself can answer that question."

"The boundlessness of God's power if we pray to Him rests on three facts," the minister stated. "He is infinite, He is omnipotent and when He sees the yearning in our hearts, He willingly helps us. We may pray for health and like the woman who touched the hem of His garment, be healed; we may pray for the soul of a friend and as quickly as we would save a drowning child if we could, just that quickly would God reach out and save a sinking soul."

"God's boundless goodness is unlimited," continued the minister in showing the facts showing the truth of the theme. "As a single drop of water taken from the great ocean would not be missed, so small is our petition in comparison to the wideness of God's mercy," after which he quoted the hymn "There's a wideness in God's Mercy." "When God gave His Son, the greatest gift was given and all others are small compared to it. In the third place, His mercy is boundless because of His boundless wisdom. He knows what we need even before we ask for it. Only prayers made in the true filial spirit, leaving the wisdom to God's decision, will be answered. However, it is better to make a wrong prayer than none at all."

"Our faith is the only limit to the supply of this power. His promises

## WILL SPEAK AT INSTITUTE

Dr. Sherman Davis of I. U. Chemistry Department Coming

Dr. Sherman Davis of the chemistry department at Indiana university is to be one of the speakers at the teachers' institute to be held at the high school on Saturday, January 12. Dr. Davis comes highly recommended as a speaker. It is possible that someone may be here also to address the teachers on the Thrift Stamp work in the schools. One of the committees in charge of the campaign has written to Superintendent Scholl asking that a speaker be allowed to come for an institute in the near future.

## CARTHAGE ALMOST DOUBLES MEMBERS

Red Cross Auxiliary Turns in 310  
Today, Previous Membership  
Being 321—Now 33 Per Cent

### SOME IN 100 PER CENT CLASS

Three hundred and ten memberships were turned in today to the Red Cross headquarters from the Carthage auxiliary as a result of the recent membership drive. This number of new members almost doubles the membership roll there for the membership previous to the drive was 321. The new members are still being turned in there. This report of 631 members in Carthage gives 33 per cent of the population in Red Cross. Several business houses there report one hundred per cent, among them: the Bank of Carthage, S. L. Newsom Store, Phillips Brothers Grocery, Postoffice and R. F. Henley grocery.

The Gillispie grocery and K. of C. lodge have been added to the 100 per cent membership list. During the time that the assembly room of the court house is being repaired for the headquarters, the membership headquarters have been moved to the recorder's office.

## FARMERS CLUBS BEING ORGANIZED IN COUNTY

First Meeting of Fairview Club Held  
Last Night Marked With Enthusiasm and Interest

### AT WEBB SCHOOL MONDAY EVE

A new movement, that of organizing farmer's clubs over the county, is now being pushed by county emergency demonstration agent, Marion Dietrick. On Monday evening, a meeting has been called for the Webb township school when farmers and their families from the entire neighborhood are asked to be present and aid in the organization.

A very successful organization has been perfected at Fairview. The farmer's club there was organized in December and the first regular meeting was held last evening at the Odd Fellows hall in Falmouth. Enthusiasm marked the entire session, there being about 125 present for the meeting.

Several talks of practical interest to the farmers, and their families were made. Mr. Dietrick talked on "Soil Fertility," J. J. Morrison, county agent of Fayette county, gave a talk on the "Seed Corn Situation," Miss Essie May Frazee of Connorsville gave a talk on, "Woman's Bit in the War," and Mrs. Saxton and Miss Hinchman of Falmouth took part in the discussions. The meetings of the organization are set for the first Friday in each month. The dues for the members are fifty cents for each family, the money being used to promote club work. To develop community spirit is the object of the clubs which will take up different phases of farm life

## ENGLISH ANSWER AUSTRIAN TERMS

Premier Lloyd-George Lays Down  
Three Principles on Which Allies Will Talk Peace

### ARMAMENT MUST BE LIMITED

Turkey Announces Peace Terms,  
Offering Russia Free Passage  
of Dardanelles During War

By ED L. KEEN

(U. P. Staff Correspondent.)

London, Jan. 5.—Britain's answer to Count Czernin's terms of peace for the central powers was announced today by Premier Lloyd-George in a speech at the British labor conference.

The British premier laid down three principles on which Britain and the allies would be willing to talk peace. First the sanctity of the treaty must be re-established; second, there must be territorial settlement based on the consent of those governed; third, there must be created some international organization to limit the burden of armament and diminish the probability of war.

The British premier held Britain and her allies are fighting; not for the destruction of Germany, not to destroy Austria-Hungary or Turkey, not merely to alter or destroy the imperial constitution of Germany, not to take Turkey's lands that are predominately Turkey's but for these principles:

First—complete restoration of Belgium; second—restoration as far as possible of devastated towns and cities; third—neutralization and nationalization of the Dardanelles; fourth—reconsideration of the "great wrong" as to France in 1871, referring to Alsace-Lorraine; five—establishment of an independent Poland, comprising "all genuine Polish elements, because this is necessary to the stability of western Europe; sixth—Arabia, Armenia, Mesopotamia, Syria, Palestine—all entitled to separate national conditions; seventh—of Russia, the British statesman left the future to the decision of the Russian people themselves; eighth—inhabitants of African colonies to be placed under an administration acceptable to themselves for the purpose of preventing exploitation for the benefit of European capital and of European capitalists governments.

"We will stand by the French, French democracy to the death," Lloyd-George declared.

### Turkey's Peace Terms

Petrograd, Jan. 5.—Turkey is willing to grant Russia free passage through the Dardanelles during the remainder of the war, but holds all her frontiers should be restored to their status before the war, according to Turkey's peace terms announced today. They provide:

Agreement by a convention as to future sea trade; individual war losses to be refunded; territorial safety and development of Persia to be guaranteed on the basis of entire independence; free passage for Russia through the Dardanelles and the Bosphorus during the war; limited mobilization for national defense.

### Russian Delegates Leave

Zurich, Jan. 5.—Central powers delegates returning to Brest-Litovsk under the impression that there would be immediate resumption of peace negotiations with Russia, arrived to find not a single Russian delegate there, according to Vienna dispatches today.

Instead the delegates received telegrams asking for transfers of all future negotiations to Stockholm.

### Germany Threatens Russia

Amsterdam, Jan. 5.—"Russia must take the consequences if she breaks off peace negotiations," is the veiled threat of German military powers

## Could Not Eat or Sleep Made Well By PERUNA

Mr. William E. Denny, 1023 Park Ave., Springfield, Ohio, writes: "I find great pleasure in writing you and thanking you for what Peruna has already done for me. I have been troubled with catarrh for years, and it had affected my head, nose, throat and stomach, that I could not eat nor sleep with any satisfaction. "I have just taken three bottles. I can eat most anything and am greatly relieved of nervousness, so that when I lie down I can sleep without the least trouble. I recommend it to all those who are sufferers of that dreadful disease, catarrh."

## ODDS AGAINST THE LOCAL H. S. TEAM

Score of 30 to 22 in Favor of Shelbyville Good Showing Considering Condition of Team

**NEXT GAME WITH NEWCASTLE**

**Tompkins and Keating Star For Locals, Each Making Three Field Goals—30 Rooters Go**

Playing against the worst odds, the local high school team returned from the game with Shelbyville last evening with a defeat of only eight points, the score ending 30 to 22 in favor of the Shelbyville high school. Several of the local players have been sick this week. Brown had a sprained ankle, Keating had an injured leg, Caron was suffering boils and Reed, captain of the team, was out of the game. Considering all of these difficulties, the locals did fine. They were accompanied to Shelbyville by about 30 rooters.

Keating and Tompkins starred for the local lads, each scoring three field goals and Keating made two foul goals. At times, the locals showed good team work as a result of their last week's practice. For the Shelbyville team, Campbell, Winkler and Hack did the best playing. Evans of Indianapolis refereed the game. Dean Keith the new history instructor is coaching the local team.

The game next Friday night with Newcastle which will be played on the local floor is expected to be one of the biggest games of the season. Newcastle has a fast team this year and the boys here are planning to put in a hard week of practicing in getting ready for the contest Friday night.

The line-up for last night's game follows:

Keating	Forward	Winkler
Brown	Center	Hack
Dailey	Center	Briggs
Tompkins	Center	Campbell, Capt.
Norris	Guard	Boers
Caron	Guard	Hogue
	Substitute	
Headlee	Substitute	Moore

The scores made were as follows: Rushville, first half, field goals, Keating (2); second half, Keating (1), Brown (1), Tompkins (3). Fouls, first half, Rushville, Keating (1), Brown (4), second half, Keating (1), Brown (2).

Shelbyville, first half, field goals, Hack (1), Campbell (3); second half, Winkler (2), Hack (4), Briggs (1). Foul goals, first half, Shelbyville, Winkler (3), second half, Winkler (5).

The fouls made for Rushville were: first half, Brown, 2 technical; 2 personal; Norris, 1 personal; Keating, 1 personal, 1 technical; Brown, 1 personal, 1 technical; Dailey, 1 personal.

## WATSON AND NEW TRY TO BAR MAYOR

Indiana Senators Appeal to President to Prevent Alien From Taking Office.

**MICHIGAN CITY CASE REVIVED**

Senator James E. Watson of this city and Senator Harry S. New have appealed to President Wilson in an effort to prevent Fred C. Wilson, born in this country of German parents, and without final naturalization papers, from becoming mayor of Michigan City, Ind., next Monday. They urged that regulations governing enemy aliens be changed so as to prevent them from holding public office.

Proceedings were instituted in the Federal District Court in Indiana recently to prevent Miller from assuming office, but Federal Judge Anderson, although criticising the citizens of the city for electing a man to office who was not a citizen, decided that under the law he was powerless to interfere.

An appeal then was made by a group of Michigan City citizens to the Indiana senators to urge the president to take some action. Miller is said to have taken out his first naturalization papers.

The department of justice pointed out that United States Marshal Storer might revoke Miller's permit, if so directed, in case it develops that the facts justify such action.

## FRENCH AVIATOR TO SPEAK AT PRINCESS

American boys should feel proud when they are accepted for service in the Aviation Corps of the United States Army, claims Bill McGinn, a former Cincinnati newspaperman who for the past year has been flying in France as a member of the Foreign Legion.

In France a soldier is usually forced to spend considerable time in some branch of the military service before being transferred to aviation, while over here if a man has certain qualifications he is accepted and put in training.

Mr. McGinn believes that within a reasonable time, America will lead the world in flying as the men in charge are competent and can be counted upon to get results. He will appear at the Princess theatre on Monday afternoon and evening giving short talks on his experiences abroad.

himself of the authority given him in the Lever Food and Fuel control law to prohibit the further manufacture of beer and wine during the war and by commandeering whiskey, place the nation under war time prohibition.

"The ruthless destruction of food materials by the brewers of this country when our allies are starving and thousands of our own people are hungry; the use of tens of thousands of tons of coal by the brewers and saloons of our country when homes, schools and churches, the government itself and our allies are unable to procure what is actually needed; the use of transportation facilities for hauling of beer, when

our government cannot secure the hauling of war material rapidly enough; and the lowering of the efficiency of the man power of the nation, when our government's existence is in peril—ought to cease.

ago disposed of his interest in a store here to his partner and who yesterday was placed in class one, was examined Wednesday by the physician member of the board and passed. He is now in class one ready to be inducted into the army. This makes five who will be sent whenever the call comes for the remaining 35 per cent of the first quota.

The board only classified thirty-four, being interrupted many times. Some time was devoted to sending the records of thirteen registrants with industrial and agricultural claims to the district board and the appeals of three registrants placed in class one from the decision of the local board.

Also, some of the board's time was taken in straightening out the questionnaires of a number of registrants claiming deferred classification by reason of being employed on farms, which were sent back here by the district board for additional data. It seems that in many instances registrants were confused about questions to be answered if the registrant is an employee or an employer. Also, in a number of cases the owner of the land on which the registrant is employed did not sign the affidavit as required.

Yesterday for the first time more questionnaires were returned than were sent out, indicating that registrants are answering the questions quicker than they did at first. One registrant returned his questionnaire by registered mail to make sure the board got it.

Of the thirty-four classified yesterday, nine were placed in class one, three in class two, one in class three, sixteen in class four, and five in class five. This makes a total of 527 cases disposed of up to today, 150 of which are in class one.

# Less Talk—More Guns Our Army's Need

THE LITERARY DIGEST for January 5th commences the year 1918 (the twenty-eighth year of its existence) overflowing with vital news-articles of immediate interest. In fact, there are several topics so important that in enumerating them it is difficult to say which should come first.

WHY WE WENT TO WAR WITHOUT GUNS covers from every angle the Congressional investigation of the War Department. It presents the criticisms leveled at the Administration and also the evidence adduced in its favor, with comments from the press of the United States.

UNCLE SAM TAKES OVER THE RAILROADS—Is this the first step toward Government ownership? Will the situation continue after the war? To get an answer to such questions THE DIGEST telegraphed to leading editors throughout the country asking for an expression of opinion upon this latest and most radical war-measure, and this article gives illuminating replies from them.

CENTRAL POWERS ANXIOUS TO QUIT deals with a subject of vital human interest, being a résumé of public opinion upon Germany's latest peace proposal.

THE TRUTH AT THE BOTTOM OF THE SUGAR-BARREL concludes the story in last week's DIGEST of the investigation of Mr. Hoover and the Food Administration.

Other interesting and instructive topics in this number of THE DIGEST (dated January 5th) are:

Short-Lived Victory at Cambrai  
Prussian "Democratic" Franchise  
To Win the War with American Coal  
The Fuel Value of Wood  
Keeping the Workers Well  
Saving Wheat by Saving Meat  
New York School House-Cleaning

## THE DIGEST—the Busy Man's Bible, the Doubting Man's Dictionary

Those of us who are busy, and which of us is not in these superstitious times, frequently sigh over the arid wilderness of irrelevant information through which we have to struggle in our daily papers in order to obtain those diamonds in a dust-heap—the items of vital news for which we are seeking. THE LITERARY DIGEST saves you all this

trouble. It derives its résumé of the news not merely from a single paper, which would be to retain the latter's view-point, but from a weekly gleaming of all the worth-while publications of the world, recording the result without comment or partiality, adhering to no view-point but reporting all. The facts of the day, focused from all points, are yours in "The Digest."

### OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

### RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil

Stop "dosing" Rheumatism. It's pain only; not one case in fifty requires internal treatment. Rub soothing, penetrating "St. Jacobs Oil" right on the "tender spot," and by the time you say Jack Robinson—out comes the rheumatic pain. "St. Jacobs Oil" is a harmless rheumatism cure which never disappoints and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops eczema, lumbago, backache, neuralgia. Limber up! Get a 25 cent bottle of old-time, honest "St. Jacobs Oil" from any drug store, and in a moment you'll be free from pains, aches and stiffness. Don't suffer! Rub rheumatism away.

**FIGHT  
FOR YOUR LIFE**  
**Duty Demands  
Robust Health**  
**Fight to get it and keep it**

Fight—fight day in and day out to prevent being overtaken by ill and ails. Keep wrinkles from marring the cheek and the body from losing its youthful appearance and buoyancy. Fight when ill-health is coming with its pallor and pains, defects and declining powers. Fight to stay its course and drive it off.

But fight intelligently. Don't fight without weapons that can win the day for without the intelligent use of effective weapons the pallor spreads and weakness grows and a seemingly strong man or woman oftentimes becomes a prey to ill after all.

You will not find this class of persons in the hypoferrin ranks. No unhealthy, dull, draggy, droopy persons in that line. It is a hale, hearty, robust aggregation of quick-steppers who view life in a joyous frame of mind and are mentally and physically equal to any emergency. Hypoferrin stands for sound body and sound mind—it is the invigorating tonic of the times—powerful and unsurpassed as a health restorer, vitalizer and health preserver. Fight to hold the vigor of a sound body with hypoferrin or to stay the process of decay and restore health and strength—you win. This tonic of amazing, wonder-working properties has been approved by physicians as a restorer and safeguard of health. It is a thoroughly scientific preparation of the very elements necessary to tone up the stomach and nerves, to build strong, vital tissue, make pure blood, firm flesh and solid, active, tireless muscles.

Hypoferrin contains these mighty strength-producing agents, lecithin-and-iron peptonate, in a form best adapted to benefit the body and its organs. Its ingredients are absolutely necessary to the blood. In nine cases out of ten a run-down condition, sallow, pale complexion that "all and feeling and frail bodies are due to lack of lecithin-and-iron peptonate in the system.

Your mental and physical strength and endurance depends upon a lecithin-and-iron peptonate laden blood; steady, dependable nerves and a healthy stomach. With these you can meet life at any angle.

This wonder tonic, hypoferrin, which is as perfect as science can get to nature, meets every essential demand of the human organism. It is safe and sure and boon to run-down, worn-out men and women. Hypoferrin means nature's own way of bringing color to the cheeks, strength to the body and keeping the vigor and buoyancy of youth. The powder and paint way of effecting beauty is not needed by hypoferrin women and girls. Their blood, filled with nature's beauty stores, creates conditions that give firmness and grace to the body and the glow of health to the face.

No need of going through life sickly and always feeling miserable in this age of medical science. Join the hypoferrin ranks. It puts into you the spring and vigor you ought to have and puts life to your body and mind that inspires the confidence that confronts the world on an equal footing with the best.

Hypoferrin may be had at your druggist or direct from us for \$1.00 per box. It is well worth the price. Santal Remedies Co., Cincinnati.

### Many Ways to Save Coal

Various measures for saving coal and for making fuel go as far as possible are being worked out under various county fuel directors in Indiana.

In Henry County, where it was suggested that the churches do away with or consolidate various meetings held in church buildings through the week, and hold union services Sundays, all to save coal, the ministerial association publicly demanded that the saloons of the community also close, as well as the churches and help save fuel.

Union meetings of churches and consolidation of church activities to conserve fuel have become general throughout the state as part of the coal saving campaign.

The Tippecanoe county council of defense urged that the Lafayette schools and other schools of the county extend their Christmas vacation, do away with furnace fires for a month and thus save fuel. The city of Cleveland, O., acted on this plan. Some confusion has been caused in Indiana because of a supposed conflict between plans to shorten the winter holiday and let out school early in the spring in time for planting, and other plans which seek by prolonging the cold weather vacation to save coal.

It is generally accepted that the war emergency is so serious and the winter need for fuel and the spring need for boy power are so acute that the number of days of school may

be curtailed. Intensive schooling is being resorted to in many places to make up for the days that may be lost because of elongated holidays or premature spring dismissal.

### Watch Men Who Despise Wealth

Watch the man who affects to despise wealth. There's something wrong with his mental make-up. Wealth is the visible evidence of industry; it is the vehicle through which all human activities accomplish their results. A sordid greed for gold is repulsive to all right thinking persons, but the man who has not a true appreciation of the value of wealth—be it in money or what not—has no appreciation of the worth of human ambition. He lacks the real inspiration of what moves to successful effort. The spendthrift is not the most desirable of characters, but he is a paragon beside the man totally lacking in the ambition to accumulate the rewards of industry. The fellow who has nothing and wants less is simply a clog on the wheels of progress, and the world were better off without him.

An exchange says that "Bolshevik" leaders are all right except in lacking the minor qualities of intelligence, experience, morals and patriotism." Sounds a good deal like the old cooper's definition of "nothing"—an empty bung-hole without a barrel.

Many a man who has thrown mud at a political opponent has been surprised to find that every chunk stuck—in the form of votes for the other fellow.

If Russia continues very long in her present course, the world will begin to think that Nick Romanoff didn't make half enough anarchist martyrs.

### ALBERT COX WRITES FROM FORT BLISS, TEXAS

Mr. and Mrs. P. J. Cox of 613 West Ninth street have received a letter from their son, Albert C. Cox, who is stationed at Fort Bliss, Tex., saying he was in the 18th Field Artillery, Battery C. It is as follows: "I will write and let you know how I like the life. The letter you wrote me went to Fort Thomas, Ky., and then came here. I am having a very good time here but would like to see home before I leave here for when I leave here it may be to go to France. A soldier does not know one week where he will be the next. I have taken out some insurance in case I should get hurt while in the army. After the war I will get fifty dollars a month and if I get killed you will get ten thousand dollars."

—Fred Arbuckle returned last night from a business trip to Hamilton, Ohio.

### PRICE IS BIGGEST CHANGE IN AUTOS

18th Annual Show Opens in New York Today With 300 Models From 86 Manufacturers

### CARS TO MEET EVERY PURSE

49 Per Cent of Models Between One and Two Thousand Dollars—New Attachments Designed

(By United Press.)

New York, Jan. 5.—The eighteenth annual National Automobile Show opened at the Grand Central palace today—war time prices availing. The show will continue until Jan. 12.

Eighty-six manufacturers are displaying more than 300 models, ranging all the way from tiny runabouts selling for a few hundred dollars to the largest roomiest limousines costing up to \$20,000.

The exhibit includes cars "meeting every purse," but the percentage of low priced cars is markedly lower than in 1917. Last year about 10 per cent of the models sold for under \$750. This year just slightly under 6 per cent of the models sell under this mark.

21.6 per cent of the 1918 models list for under \$1000. Last year this price class represented 27.7 per cent of the models. A man desiring to spend between \$1,000 and \$2,000 for a car this year has 49 per cent of the models of the market to select from, while last he had 53.6 per cent.

Thousands of little attachments designed to add to the economy and comfort of automobile maintenance are displayed on the upper floors of the Palace.

The 1918 car shows very little change mechanically over that of 1917. What changes have been made, are chiefly in the nature of minor refinements.

### People's Column

The following from the Chicago Tribune has been received with the request that it be published.

According to an announcement sent out by the board of foreign missions of the Methodist Episcopal church today, Dr. Bertram Tipple, head of the Methodist missions in Italy who recently came to this country, gives unbounded praise to President Wilson for placing America and Americans on the plane they have attained in Europe.

"Woodrow Wilson is the greatest missionary of a hundred years," Dr. Tipple said. "He has given Protestantism the greatest opportunity since the days of Martin Luther."

"Take this one instance: I do not know if you notice it over here, but when he wrote those words in the fly leaf of the Bibles given to the soldiers leaving for France he said, 'Men, if you want stamina and character in you, you want to read this book. It will carry you through the crisis.'"

"This has been translated and read by soldiers and citizens all over the world. Think what it means in southern Europe where an open Bible has been taboo."

"And because of the way Wilson went into the war, because of the moral leadership which he has assumed in the struggle, where ever the American missionary goes he is finding an open door. He has been freed from the handicap of the stigma of luxury and wealth formerly attaching to all who came from the United States."

KEEP LOOKING YOUNG

**It's Easy—If You Know Dr. Edwards' Olive Tablets**

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

BRITISH AMBASSADOR APPARENTLY RETIRES TO BE HELD AT SCHOOL

Although on Leave, Departure is Probably Retirement—Been Under Fire From Northcliffe

**REPORT DISSATISFACTION**

(By United Press.)

Washington, Jan 5.—British Ambassador Spring-Rice is returning to England "on leave," he announced today. In announcing what is apparently his retirement from the Washington post, he gave no explanation.

The ambassador has been under fire from Lord Northcliffe who opposed his system of handling war matters here. There were reports of dissatisfaction with the ambassador because Teuton diplomats were outmaneuvering the British in this country.

**Heal Skin Diseases**

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. A little zemo, obtained at any drug store for 35c, or \$1.00 for extra large bottle, and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress.

THE FARMERS INSTITUTE

January 10 Set As Date for Fifth Annual Orange Township Farmers Institute and Corn Show

The fifth annual farmers institute and corn show of Orange township will be held at the Orange township school on January 10 beginning at 10 o'clock in the morning. The program will continue through the morning and afternoon sessions and a basket dinner will be served at noon.

Two unusually good speakers are being sent from Purdue university to address the sessions. E. L. Thompson of Topeka, Ind., will speak on agricultural subjects at each of the sessions and Mrs. Carl Tuttle will speak on "Rural Church Efficiency" and on "The Boy and Girl in the Farm Home" at the morning and afternoon meetings. Several home talent numbers will be added to the programs. The corn show will continue throughout the day.

A farmers institute will be held at Andersonville on Thursday of next week. The meetings will be held in the United Brethren church and a lunch will be served at noon, the proceeds of which will go to Red Cross. Interesting speakers from Purdue university will take part on the program.

The Loyal Daughters of the Main Street Christian church will resume their meetings Monday night after a vacation of several weeks. The meeting Monday night will be held with Mrs. Glen Moore at her home in East Sixth street, the assisting hostesses being Mrs. Maudie McClintie and the Misses Pearl Leach and Lorene Byrd. The members are asked to be there promptly at seven-thirty and to bring needles and thimble with them as it has been planned to sew for the Red Cross.

News of the marriage of Miss Maud Slack of Oklahoma, and Dell Randall of San Francisco, Cal., formerly of this county, which occurred the latter part of November, has just been received here. Mr. Randall is a brother of Mrs. Fred Oldham of Jackson township and was born and reared near Mays. Mr. Randall is an artist and now makes his home in San Francisco, where the marriage took place.

Six members of the Cross Country Club were entertained by the Misses Carrie McManus and Bessie Morris at the home of Miss Morris north of the city yesterday afternoon. The members spent the afternoon sewing for the Red Cross and a dainty luncheon was served to the

## A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole.

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.

Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest (it often prevents pneumonia). Nothing like Musterole for croupy children. Keep it handy for instant use. 30c and 60c jars; hospital size \$2.50.

## HE NOW LAUGHS AT THE MEN AT THE TABLE.

This Man Was Always Ill at Ease While Waiting for His Dinner, Until—Pepsinco.

He would order a few little things and see visions of pains, nausea, misery and everything but enjoyment when they were put before him. Much or little never failed to leave the same miserable, disagreeable, sick headachy feeling. He had to eat and suffered the consequences.

He thought he was doomed to eternal chronic stomach trouble. He doctored, used many remedies, but no help.

A stranger, a good Samaritan, saw his condition; asked him the reason; offered him Pepsinco, and now a happy, smiling diner awaits the steaming dishes.

If your stomach bothers; if your food sours or disagrees with you; if pains follow a meal and sick headache is a rule, stop at the drug store and get a small package of Pepsinco now today. It is a positive remedy for bad stomachs.

guests in the evening.

Miss Florence Cooning entertained yesterday afternoon honoring Miss Catherine Caron. The afternoon was spent playing games and a delicious two course luncheon was served to the guests who were the Misses Norma Oenal, Margaret Kirk, Anna Reardon, Eloise Kelley, and Catherine Caron.

The Monday Circle will meet Monday afternoon with Mrs. Minnie Abercrombie at her home in North Morgan street. Mrs. Leila Gilbert will have the paper of the afternoon which will be followed by the annual election of officers.

Vincent Gray and his bride, formerly Miss Matilda Courtner of Shelby county, arrived at the home of Mr. Gray's parents, Mr. and Mrs. James Gray north of Mauzy on Thursday. The wedding took place recently.

The Plum Creek C. W. B. M. will meet Wednesday afternoon with Mrs. Pete Hollowell at two-thirty. Mrs. Winnie Ertel will be the leader and a full attendance is urged.

The Odd Fellows held their regular encampment meeting last night followed by the installation of officers. At the close of the meeting a social time was enjoyed.

Mr. and Mrs. Guy Abercrombie entertained twelve guests at a pretty appointed dinner yesterday at noon. A delicious dinner was served.

M. A. Blackledge was entertained today by his daughter, Mrs. James Brooks and family, the occasion being his eighty-seventh birthday.

The C. W. B. M. of Sexton will meet Tuesday afternoon with Mrs. John Wiess at her home north of the city.

### Amusements

Baby Marie Osborne, the famous Pathe child star, who is featured in the five-reel photoplay, "Tears and Smiles," which was produced by Lasalida Films, Inc. at Los Angeles and is to be shown at the Gem theatre today is as democratic a little miss as ever played a prank. When the little colored boy who plays in the picture first put foot inside the studio grounds, Mistress Marie looked him over critically, then decided that his "panties" were too ragged for any good use.

"Wait a minute," said she to Director Eugene Moore; "I'll be busy a minute."

Baby Marie disappeared into her dressing room, came forth in a few moments with a little package under her arm and beckoned mysteriously to the "raggedy" boy. The two disappeared around the edge of a studio building. General Manager W. A. S. Douglas followed and what he heard was this:

"Here boy, you is too ragged to be in pictures. Your panties is all shot to peaches. You wear these. But you've got to give 'em back. They're my Sunday ones."

Tonight's program consists of a comedy reel "Her Father's Station," and "A Candy Jag," and another adventure of, "Stingeree."

The Golden Gate Trio is the special attraction at the Princess this afternoon and evening and they offer a varied program of popular and patriotic airs. Complimentary reports have preceded the coming of the three singers concerning their programs. Bryant Washburn and Virginia Valli have principal parts in "The Fibbers," a good story of experiences of a young married couple. Alice Brady appears on Monday in "Betsy Ross," a patriotic play. ## Registering to Start Soon In Rush Co.

Every Woman in County Will be Asked to Sign Card Signifying What Work She Would Volunteer To do in an Emergency—No Obligation Attached. Mrs. Clara Lambert to Head Work Here.

The registration of Rush county women for volunteer service in case they are needed will begin in several weeks under the supervision of the County Council of Defense. Mrs. Clara Lambert has been appointed by the council to head this work in Rush county and to appoint assistants to make the complete canvass.

Concerning the registration of women, the State Council of Defense has sent out the following facts:

In England today the women are volunteers, and there are four million women doing men's work, two million women doing war work. We were told by a member of the British Industrial commission which recently visited Indianapolis, that the skilled women who are doing skilled men's work get the same rate of pay. The woman, who does the same piece work as a man is paid the same as the men. There is a certain percentage of women who work by the day in emergency work and they are paid by the day, a fixed sum on order of the government which varies as they become more useful; they are not being so readily adapted to more general tasks which sometimes makes the man's pay a little more.

American women must be ready when the call comes. Her right to labor and her right to an equal wage cannot be questioned by thinking people. She can best serve in the lines in which she has had experience and training, and the government can throw its protection about her only when it is in position to determine just where she will fit best. This registration of women will disclose. This is why we are asking Indiana women to indicate their fitness, their training, their willingness, and why we want these facts registered and catalogued so that should the call come we can say in chorus—"Here we are, take us." Another reason for having women register is that there is no question that women are the moral force of the country, and it is the greatest encouragement to the heads of our government to know that the women are standing back of them.

There has been so much misunderstanding in regard to the intent of this registration of women that we think it well to make a few explanations. In the first place it should be understood that the government is not asking any one who cannot afford volunteer service to work without pay, nor is it asking any woman to work her entire time if she has other obligations. It desires such women as will work all or part time, and wants to know whether they expect pay or not. It must be understood that the entire proposition is voluntary. The absence of either federal or state law calling for such a census forces those who are taking the registration to depend upon their ability to make the average woman understand that the registration binds the signer to absolutely nothing except what she is ready to do voluntarily and from patriotic motives. The usual enemy opposition has developed and such statements as the one which conveys the suggestion that this was a "draft of women;" that the government would later require women to perform such tasks as she admitted she was able to perform; that the information put down on the cards would be used by conscription boards as evidence of the woman being able to support herself should her husband be called on for army service; and other equally traitorous and more maliciously false became common. It has been the deception, misrepresentation and ignorance of the women of Indiana that has retarded the success of this highly important work in the past.

contained in a semi-official dispatch from Berlin received here today.

The message emphasized that a rupture of the Brest-Litovsk conferences would not change the military or political situation.

German newspapers today all warn against acceptance by the German government of proposals for a conference of socialists at Stockholm, urging that such a conference would be directly under the British government.

London, Jan. 5.—The Russian Bolsheviks have put the imperial German government "between the devil and the deep sea" is the universal view here today.

Germany's next effort to avoid one or the other contingency will be some additional concessions in a desperate effort to prevent final breaking off of negotiations.

## 2 ORDERED TO BE ARRESTED REPORT

Elmer Snoddy Appears Before Army  
Board and D. A. Bromm Writes  
From Wichita, Kan.

### NO ATTEMPT TO EVADE DRAFT

Many Questionnaires Returned by  
District Board For Additional  
Information

A complete list of registrants classified by the army selection board yesterday, together with those who appealed to the district board or who had industrial or agricultural claims transferred to the district board will be found on page three of today's issue.

Two of the nine registrants who Thursday were ordered arrested by the county army selection board for failure to return their questionnaires have reported to the board that they have never received their questionnaires and are ready to answer the questions.

Elmer Snoddy, who registered while living on a Rushville rural route, but who did not leave his change of address with the board and had not received a questionnaire, reported to the board when he learned that his arrest had been ordered. David A. Bromm of New York, who was working on the new elevator at New Salem when he registered, has written the board from Wichita, Kansas, inquiring about his present status.

Apparently neither of these men tried to evade the draft. Snoddy's questionnaire was returned to the board with the information that his whereabouts were unknown. It was then the board decided to order his arrest. It is understood Snoddy has been living near Calksburg and neglected to inform the board of his present address. As soon as he learned he was wanted, he came to the board.

Bromm's letter, which was received today, gives his address as 1806 Bluff street, Wichita, Kansas, and makes inquiry about his status. He evidently had no intention of attempting to evade being drafted because in his letter he mentions both his order and serial number, showing that he had preserved the records of his case and was expecting to be called. Bromm inquired about a questionnaire. One will be mailed to him by the board.

Floyd H. Miner, formerly of Carthage, who was placed in class one, has asked that his examination be transferred to Paoli, Ind., where he is teaching school, and the board has granted his request.

## 2 Brothers Want To Go To War But One Has To Sacrifice; Stays At Home

One bright spot in the draft that has come to the attention of the county army selection board is the case of two brothers—Donald H. and George L. Fenster—who argued the question of going to war. It was refreshing to the board to find two brothers, one of whom should stay at home to support infirm parents, debating about who should have the privilege of serving their country. Both wanted to go and each thought he was the one who should go.

They finally compromised by George deciding to stay at home because he makes more money and his work is steadier. Both could claim deferred classification because of infirm parents who are dependent upon them. The argument is generally the other way—how to get out of going to war, not how to get to war.

## REVIVAL TO BE POSTPONED

Fuel Shortage Cause For U. P.  
Church Calling off Meetings

The revival services which were to have been held at the United Presbyterian church during the next two weeks have been postponed indefinitely on account of the fuel shortage. The decision was made at a meeting of the official board held last evening. Dr. J. F. Hill of the Reed Memorial United Presbyterian church at Richmond had been engaged as evangelist for the services. The supply of coal at the church is enough for about one week's meetings and in the face of the situation with no prospects of getting any more, the meetings were postponed.

## FLAG WITH 32 STARS WILL BE PRESENTED

Ladies Aid Society of First Presby-  
terian Church Will Present  
Flag Tomorrow Evening

### S. L. TRABUE WILL SPEAK

A special patriotic service will be given at the First Presbyterian church tomorrow evening honoring the presentation of the service flag, containing 32 stars for as many young men from the church and Sunday school who have "joined the colors." The service will begin at 7 o'clock and promises to be interesting as well as inspiring. The flag has been made by the Ladies Aid society of the church who will be represented by Mrs. A. L. Gary in presenting it. S. L. Trabue will speak for the church in accepting the flag. One of the boys who is honored by a star on the flag will be at the meeting and speak in behalf of the young men in the service.

The following program will be rendered:

Talk by the Rev. D. Ira Lambert. Reading, "The Service Flag," by Paul Spivey.

Presentation of the flag by Mrs. Gary.

Acceptance by S. L. Trabue. Short talk by young man in service. Patriotic music.

## TWO CARLOADS OF COAL ARRIVE TODAY

Weather Man Making Good His  
Promise of Warmer Weather  
Helps to Relieve Situation

### MERCURY MOUNTS IN TUBE

The arrival of two carloads of coal in the city today and the fulfillment of the promise of the weather man for warmer weather has greatly relieved the situation which was growing very serious.

Dan Matlock received a car load of hard coal early this morning and it was sold in a very short time. J. P. Frazee received a car of Indiana coal with which he was endeavoring to fill some of the back orders.

Last night's lowest temperature was eleven above zero and today the thermometer went the highest that it has for a number of days. Continued warm weather is promised in today's prediction and indications are for rain or snow tonight or tomorrow.

### LOCAL MAN'S FATHER DIES

News of the death of W. A. Polk of Oaktown, father of E. E. Polk of this city, has been received here. The funeral services were conducted yesterday and the death occurred on Tuesday. Mr. Polk was president of the Oaktown bank. He died at the age of 85 and had been ill for a long time with cancer. E. E. Polk of this city was called there on account of the death.

## NEW WAR STUDIES IN SCHOOLS HERE

Course of Studies Issued by Gov-  
ernment on National Life Cover  
Eight Months Lessons

### ARE FOUND VERY PRACTICAL

Students From Sixth Grade to Sen-  
ior Class of High School Fol-  
low Government Suggestion

The series of lessons on "Community and National Life," published by the government are being studied by the pupils of the Rushville schools. These lessons are issued monthly in pamphlet form by the United States Bureau of Education, Department of the Interior and cover a wide scope of the national life, geography and various forms of education that are not covered in school books. Twenty-five of the pamphlets, which cost 3 cents apiece are purchased by the local schools monthly and studied in connection with the history courses. Superintendent J. H. Scholl stated today that the pupils were interested in studying America's welfare in this way and he spoke highly of it.

The December series of lessons covers "Machine Industry and Community Life." The October and November numbers dealt with the organization of modern industrial life as compared with the pioneer days, the effect of war on commerce in nitrate, the war and aeroplane production and wise consumption and similar topics. The idea of teaching the principles of conservation underlying successful prosecution of the war originated with the Food Administration but the plan has now been taken over by the Bureau of Education. Professor Charles H. Judd of the University of Chicago with the assistance of a corps of writers in the various fields is preparing these government texts for the pupils in the elementary and high schools.

The lessons are being taken up here by the pupils from the sixth grade to the senior class of high school. Parents as well as pupils may be interested in the December lessons. The older high school students will learn of the rise of the machine industry from the day of the hand loom and the "spinning jenny" through the changes wrought by the industrial revolution, to the large scale production, world markets and social problems of modern history.

In the section intended for the first class of high school and the upper grades of the elementary school, the subject, "How Men Made Heat to Work," will be studied. The lesson reviews the use of animals, wind and water as sources of power. Telephones and telegraphs are described as "machines for overcoming space," and their part in modern industry is emphasized. Under the section "the impersonality of modern life," the lessons compare modern city life with the more intimate life of the small village, analyze the large business corporation of the present day, and suggest the need of new standards of conduct and new points of contact between human beings.

For pupils in the intermediate grades of the elementary schools, "inventions" is the subject taken up. The roll of inventions is called from the simple traps and weapons of primitive men to the printing and telegraphy of today. Other lessons in this section have to do with the "effects of machinery on rural life."

The lessons are sold at cost by the government to the schools and will consist of monthly editions for eight months until and through May.

## NEVER FAILS TO ANSWER PRAYERS

God Will Grant What is Asked If  
Plea is in True Filial Spirit,  
The Rev. C. S. Black Says.

### WEEK-OF-PRAYER SERVICES

Ministerial Association Sends Letter  
Today to President Urging  
Prohibition Support.

"There is no such a thing as divine failure to answer prayers. Ask what ye will and ye shall receive if you ask in the true filial spirit," stated the Rev. C. S. Black last evening at the United Presbyterian church at the week-of-prayer service. The minister chose for his text, "If ye abide in me and my words abide in you, ask whatsoever you will and it shall be done unto you," and for his theme, "The boundless prayer of faith." The excellent sermon showed the opportunities that are offered in prayer that are being missed today by Christians and the boundlessness of God's power if asked through prayer.

The best crowd of the week attended last night's meeting which was the last of the week-of-prayer services which are held annually. The Rev. J. T. Aiken presided over the meeting, the Rev. C. J. Bunnell read the scripture reference and the Rev. D. Ira Lambert led in prayer. Captain Dowe of the Volunteers of America who is here from Indianapolis, raising funds for his work made a short but interesting talk on the good that his army was accomplishing. About 45 per cent of the people they helped, he stated, come from the small towns and for that reason they appeal to the small towns for financial aid.

"This promise of God in the scripture," said the Rev. Mr. Black after reading the scripture reference, "shows that we have a draft on the bank of the kingdom of God signed by the King Himself. We have never yet begun to use it and if we had done so we would not complain about the dearth of spiritual life. God intends for us to be strong and make many appeals to him."

"This promise is only made to God's children," he continued, "an unbeliever cannot pray 'my Father,' but every man and sinner can pray, 'God be merciful unto me a sinner.' It was the prayer of the publican and God heard him. The world knows whether or not his words abide in you by your life but as to your abiding in Him, no one except yourself can answer that question."

"The boundlessness of God's power if we pray to Him rests on three facts," the minister stated. "He is infinite, He is omnipotent and when He sees the yearning in our hearts, He willingly helps us. We may pray for health and like the woman who touched the hem of His garment, be healed; we may pray for the soul of a friend and as quickly as we would save a drowning child if we could, just that quickly would God reach out and save a sinking soul."

"God's boundless goodness is unlimited," continued the minister in showing the facts showing the truth of the theme. "As a single drop of water taken from the great ocean would not be missed, so small is our petition in comparison to the wisdom of God's mercy," after which he quoted the hymn "There's a wideness in God's Mercy." "When God gave His Son, the greatest gift was given and all others are small compared to it. In the third place, His mercy is boundless because of His boundless wisdom. He knows what we need even before we ask for it. Only prayers made in the true filial spirit, leaving the wisdom to God's decision, will be answered. However, it is better to make a wrong prayer than none at all."

"Our faith is the only limit to the supply of this power," His promises

## WILL SPEAK AT INSTITUTE

Dr. Sherman Davis of I. U. Chem-  
istry Department Coming

Dr. Sherman Davis of the chemistry department at Indiana university is to be one of the speakers at the teachers' institute to be held at the high school on Saturday, January 12. Dr. Davis comes highly recommended as a speaker. It is possible that someone may be here also to address the teachers on the Thrift Stamp work in the schools. One of the committees in charge of the campaign has written to Superintendent Scholl asking that a speaker be allowed to come for an institute in the near future.

## CARTHAGE ALMOST DOUBLES MEMBERS

Red Cross Auxiliary Turns in 310  
Today, Previous Membership  
Being 321—Now 33 Per Cent

### SOME IN 100 PER CENT CLASS

Three hundred and ten memberships were turned in today to the Red Cross headquarters from the Carthage auxiliary as a result of the recent membership drive. This number of new members almost doubles the membership roll there for the membership previous to the drive was 321. The new members are still being turned in there. This report of 631 members in Carthage gives 33 per cent of the population in Red Cross. Several business houses there report one hundred per cent, among them: the Bank of Carthage, S. L. Newsom Store, Phillips Brothers Grocery, Postoffice and R. F. Henley grocery.

The Gillispie grocery and K. of C. lodge have been added to the 100 per cent membership list. During the time that the assembly room of the court house is being repaired for the headquarters, the membership headquarters have been moved to the recorder's office.

## FARMERS CLUBS BEING ORGANIZED IN COUNTY

First Meeting of Fairview Club Held  
Last Night Marked With En-  
thusiasm and Interest

### AT WEBB SCHOOL MONDAY EVE

A new movement, that of organizing farmer's clubs over the county, is now being pushed by county emergency demonstration agent, Marion Dietrick. On Monday evening, a meeting has been called for the Webb township school when farmers and their families from the entire neighborhood are asked to be present and aid in the organization.

A very successful organization has been perfected at Fairview. The farmer's club there was organized in December and the first regular meeting was held last evening at the Odd Fellows hall in Falmouth. Enthusiasm marked the entire session, there being about 125 present for the meeting.

Several talks of practical interest to the farmers, and their families were made. Mr. Dietrick talked on "Soil Fertility," J. J. Morrison, county agent of Fayette county, gave a talk on the "Seed Corn Situation," Miss Essie May Frazee of Connersville gave a talk on "Woman's Bit in the War," and Mrs. Saxton and Miss Hinchman of Falmouth took part in the discussions. The meetings of the organization are set for the first Friday in each month. The dues for the members are fifty cents for each family, the money being used to promote club work. To develop community spirit is the object of the clubs which will take up different phases of farm life.

## ENGLISH ANSWER AUSTRIAN TERMS

Premier Lloyd-George Lays Down  
Three Principles on Which Al-  
lies Will Talk Peace

### ARMAMENT MUST BE LIMITED

Turkey Announces Peace Terms,  
Offering Russia Free Passage  
of Dardanelles During War

By ED L. KEEN  
(U. P. Staff Correspondent.)

London, Jan. 5.—Britain's answer to Count Czernin's terms of peace for the central powers was announced today by Premier Lloyd-George in a speech at the British labor conference.

The British premier laid down three principles on which Britain and the allies would be willing to talk peace. First the sanctity of the treaty must be re-established; second, there must be territorial settlement based on the consent of those governed; third, there must be created some international organization to limit the burden of armament and diminish the probability of war.

The British premier held Britain and her allies are fighting; not for the destruction of Germany, not to destroy Austria-Hungary, or Turkey, not merely to alter or destroy the imperial constitution of Germany, not to take Turkey's lands that are predominately Turkey's but for these principles:

First—complete restoration of Belgium; second—restoration as far as possible of devastated towns and cities; third—neutralization and nationalization of the Dardanelles; fourth—reconsideration of the "great wrong" as to France in 1871, referring to Alsace-Lorraine; fifth—establishment of an independent Poland, comprising "all genuine Polish elements, because this is necessary to the stability of western Europe; sixth—Arabia, Armenia, Mesopotamia, Syria, Palestine—all entitled to separate national conditions; seventh—of Russia, the British statesman left the future to the decision of the Russian people themselves; eighth—inhabitants of African colonies to be placed under an administration acceptable to themselves for the purpose of preventing exploitation for the benefit of European capital and of European capitals governments.

"We will stand by the French, French democracy to the death," Lloyd-George declared.

### Turkey's Peace Terms

Petrograd, Jan. 5.—Turkey is willing to grant Russia free passage through the Dardanelles during the remainder of the war, but holds all her frontiers should be restored to their status before the war, according to Turkey's peace terms announced today. They provide:

Agreement by a convention as to future sea trade; individual war losses to be refunded; territorial safety and development of Persia to be guaranteed on the basis of entire independence; free passage for Russia through the Dardanelles and the Bosphorus during the war; limited mobilization for national defense.

### Russian Delegates Leave

Zurich, Jan. 5.—Central powers delegates returning to Brest-Litovsk under the impression that there would be immediate resumption of peace negotiations with Russia, arrived to find not a single Russian delegate there, according to Vienna dispatches today.

Instead the delegates received telegrams asking for transfers for all future negotiations to Stockholm.

### Germany Terminate Russia

### Could Not Eat or Sleep Made Well By PERUNA

Mr. William E. Denny, 1028 Park Ave., Springfield, Ohio, writes:  
"I find great pleasure in writing you and thanking you for what Peruna has already done for me. I have been troubled with catarrh for years, and it had affected my head, nose, throat and stomach, that I could not eat nor sleep with any satisfaction.  
"I have just taken three bottles. I can eat most anything and am greatly relieved of nervousness, so that when I lie down I can sleep without the least trouble. I recommend it to all those who are sufferers of that dreadful disease, catarrh."

### ODDS AGAINST THE LOCAL H. S. TEAM

Score of 30 to 22 in Favor of Shelbyville Good Showing Considering Condition of Team

**NEXT GAME WITH NEWCASTLE**

Tompkins and Keating Star For Locals, Each Making Three Field Goals—30 Rooters Go

Playing against the worst odds, the local high school team returned from the game with Shelbyville last evening with a defeat of only eight points, the score ending 30 to 22 in favor of the Shelbyville high school. Several of the local players have been sick this week, Brown had a sprained ankle, Keating had an injured leg, Caron was suffering boils and Reed, captain of the team, was out of the game. Considering all of these difficulties, the locals did fine. They were accompanied to Shelbyville by about 30 rooters.

Keating and Tompkins starred for the local lads, each scoring three field goals and Keating made two foul goals. At times, the locals showed good team work as a result of their last week's practice. For the Shelbyville team, Campbell, Winkler and Hack did the best playing. Evans of Indianapolis refereed the game. Dean Keith the new history instructor is coaching the local team.

The game next Friday night, with Newcastle which will be played on the local floor is expected to be one of the biggest games of the season. Newcastle has a fast team this year and the boys here are planning to put in a hard week of practicing in getting ready for the contest Friday night.

The line-up for last night's game follows:

Keating	Forward	Winkler
Brown		Hack
Dailey	Center	Briggs
Tompkins		Campbell, Capt.
Norris	Guard	Boers
Caron		Hogne
	Substitute	
Headlee		Reed

The scores made were as follows: Rushville, first half, field goals, Keating (2); second half, Keating (1), Brown (1), Tompkins (3); Fouls, first half, Rushville, Keating (1), Brown (4), second half, Keating (1), Brown (2).

Shelbyville, first half, field goals, Hack (1), Campbell (3); second half, Winkler (2), Hack (4), Briggs (1). Foul goals, first half, Shelbyville, Winkler (3); second half, Winkler (5).

The fouls made for Rushville were: first half, Brown, 2 technical, 2 personal; Norris, 1 personal; Keating, 1 personal, 1 technical; Brown, 1 personal, 1 technical; Dailey, 1 personal.

### WATSON AND NEW TRY TO BAR MAYOR

Indiana Senators Appeal to President to Prevent Allen From Taking Office

**MICHIGAN CITY CASE REVIVED**

Senator James E. Watson of this city and Senator Harry S. New have appealed to President Wilson in an effort to prevent Fred C. Wilson, born in this country of German parents, and without final naturalization papers, from becoming mayor of Michigan City, Ind., next Monday. They urged that regulations governing enemy aliens be changed so as to prevent them from holding public office.

Proceedings were instituted in the Federal District Court in Indiana recently to prevent Miller from assuming office, but Federal Judge Anderson, although criticizing the citizens of the city for electing a man to office who was not a citizen, decided that under the law he was powerless to interfere.

An appeal then was made by a group of Michigan City citizens to the Indiana senators to urge the president to take some action. Miller is said to have taken out his first naturalization papers.

The department of justice pointed out that United States Marshal Stoen might revoke Miller's permit, if so directed, in case it develops that the facts justify such action.

### FRENCH AVIATOR TO SPEAK AT PRINCESS

American boys should feel proud when they are accepted for service in the Aviation Corps of the United States Army, claims Bill McGinn, a former Cincinnati newspaperman who for the past year has been flying in France as a member of the Foreign Legion.

In France a soldier is usually forced to spend considerable time in some branch of the military service before being transferred to aviation, while over here if a man has certain qualifications he is accepted and put in training.

Mr. McGinn believes that within a reasonable time, America will lead the world in flying as the men in charge are competent and can be counted upon to get results. He will appear at the Princess theatre on Monday afternoon and evening giving short talks on his experiences abroad.

ago disposed of his interest in a store here to his partner and who yesterday was placed in class one, was examined Wednesday by the physician member of the board and passed. He is now in class one ready to be inducted into the army. This makes five who will be sent whenever the call comes for the remaining 35 per cent of the first quota.

The board only classified thirty-four, being interrupted many times. Some time was devoted to sending the records of thirteen registrants with industrial and agricultural claims to the district board and the appeals of three registrants placed in class one from the decision of the local board.

Also, some of the board's time was taken in straightening out the questionnaires of a number of registrants claiming deferred classification by reason of being employed on farms, which were sent back here by the district board for additional data. It seems that in many instances registrants were confused about questions to be answered if the registrant is an employee or an employer. Also, in a number of cases the owner of the land on which the registrant is employed did not sign the affidavit as required.

Yesterday for the first time more questionnaires were returned than were sent out, indicating that registrants are answering the questions quicker than they did at first. One registrant returned his questionnaire by registered mail to make sure the board got it.

Of the thirty-four classified yesterday, nine were placed in class one, three in class two, one in class three, sixteen in class four, and five in class five. This makes a total of 527 cases disposed of up to today, 160 of which are in class one.

## Our Army's Need

THE LITERARY DIGEST for January 5th commences the year 1918 (the twenty-eighth year of its existence) overflowing with vital news-articles of immediate interest. In fact, there are several topics so important that in enumerating them it is difficult to say which should come first.

**WHY WE WENT TO WAR WITHOUT GUNS** covers from every angle the Congressional investigation of the War Department. It presents the criticisms leveled at the Administration and also the evidence adduced in its favor, with comments from the press of the United States.

**UNCLE SAM TAKES OVER THE RAILROADS**—Is this the first step toward Government ownership? Will the situation continue after the war? To get an answer to such questions THE DIGEST telegraphed to leading editors throughout the country asking for an expression of opinion upon this latest and most radical war-measure, and this article gives illuminating replies from them.

**CENTRAL POWERS ANXIOUS TO QUIT** deals with a subject of vital human interest, being a résumé of public opinion upon Germany's latest peace proposal.

**THE TRUTH AT THE BOTTOM OF THE SUGAR-BARREL** concludes the story in last week's DIGEST of the investigation of Mr. Hoover and the Food Administration.

Other interesting and instructive topics in this number of THE DIGEST (dated January 5th) are:

- Short-Lived Victory at Cambrai
- Prussian "Democratic" Franchise
- To Win the War with American Coal
- The Fuel Value of Wood
- Keeping the Workers Well
- Saving Wheat by Saving Meat
- New York School House-Cleaning
- A Catholic Admonishes Catholics
- News of Finance and Industry

- How Quebec Takes Her Defeat
- Saving Food and Winning the War (Prepared by the U.S. Food Administration)
- The Slow Agony of Reims
- The Cradle More Fatal Than the Trench
- Art and the Life of To-day
- Rifling the Tomb of the Savior
- Defending the Red Cross

### THE DIGEST—the Busy Man's Bible, the Doubting Man's Dictionary

Those of us who are busy, and which of us is not in these superstitious times, frequently sigh over the arid wilderness of irrelevant information through which we have to struggle in our daily papers in order to obtain those diamonds in a dust-heap—the items of vital news for which we are seeking. THE LITERARY DIGEST saves you all this

trouble. It derives its résumé of the news not merely from a single paper, which would be to retain the latter's view-point, but from a weekly gleanings of all the worth-while publications of the world, recording the result without comment or partiality, adhering to no view-point but reporting all. The facts of the day, focused from all points, are yours in "The Digest."

# KEEP LOOKING YOUNG

**It's Easy—If You Know Dr. Edwards' Olive Tablets**

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone, by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

# BRITISH AMBASSADOR APPARENTLY RETIRES TO BE HELD AT SCHOOL

**Although on Leave, Departure is Probably Retirement—Been Under Fire From Northcliffe**

**REPORT DISSATISFACTION**

(By United Press.)

Washington, Jan 5.—British Ambassador Spring-Rice is returning to England "on leave," he announced today. In announcing what is apparently his retirement from the Washington post, he gave no explanation.

The ambassador has been under fire from Lord Northcliffe who opposed his system of handling war matters here. There were reports of dissatisfaction with the ambassador because Teuton diplomats were outmaneuvering the British in this country.

# January 10 Set As Date for Fifth Annual Orange Township Farmers Institute and Corn Show

The fifth annual farmers institute and corn show of Orange township will be held at the Orange township school on January 10 beginning at 10 o'clock in the morning. The program will continue through the morning and afternoon sessions and a basket dinner will be served at noon.

Two unusually good speakers are being sent from Purdue university to address the sessions: E. L. Thompson of Topeka, Ind., will speak on agricultural subjects at each of the sessions, and Mrs. Carl Tuttle will speak on "Rural Church Efficiency" and on "The Boy and Girl in the Farm Home" at the morning and afternoon meetings. Several home talent numbers will be added to the programs. The corn show will continue throughout the day.

A farmers institute will be held at Andersonville on Thursday of next week. The meetings will be held in the United Brethren church and a lunch will be served at noon, the proceeds of which will go to Red Cross. Interesting speakers from Purdue university will take part on the program.

The Loyal Daughters of the Main Street Christian church will resume their meetings Monday night after a vacation of several weeks. The meeting Monday night will be held with Mrs. Glen Moore at her home in East Sixth street, the assisting hostesses being Mrs. Maide McClintic and the Misses Pearl Leach and Lorene Byrd. The members are asked to be there promptly at seven-thirty and to bring needles and thimble with them as it has been planned to sew for the Red Cross.

News of the marriage of Miss Maud Slack of Oklahoma, and Dell Randall of San Francisco, Cal., formerly of this county, which occurred the latter part of November, has just been received here. Mr. Randall is a brother of Mrs. Fred Oldham of Jackson township and was born and reared near Mays. Mr. Randall is an artist and now makes his home in San Francisco, where the marriage took place.

Six members of the Cross Country Club were entertained by the Misses Carrie McManus and Bessie Morris at the home of Miss Morris north of the city yesterday afternoon. The members spent the afternoon sewing for the Red Cross and a dainty luncheon was served to the

## A RAW, SORE THROAT

Eases Quickly When You Apply a Little Musterole.

And Musterole won't blister like the old-fashioned mustard plaster. Just spread it on with your fingers. It penetrates to the sore spot with a gentle tingle, loosens the congestion and draws out the soreness and pain.

Musterole is a clean, white ointment made with oil of mustard. It is fine for quick relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds on the chest (it often prevents pneumonia). Much or little never failed to leave the same miserable, disagreeable, sick, headachy feeling. He had to eat and suffered the consequences. He thought he was doomed to eternal chronic stomach trouble. He doctored, used many remedies, but no help.

A stranger, a good Samaritan, in his condition, asked him the reason; offered him Pepsinco, and now a happy, smiling diner waits the steaming dishes.

If your stomach bothers you; if your food sours or disagrees with you; if pains follow a meal and headache is a rule, stop at a drug store and get a small package of Pepsinco now today. It's a positive remedy for bad stomachs.

## Amusements

Baby Marie Osborne, the famous Pathe child star, who is featured in the five-reel photoplay, "Tears and Smiles," which was produced by Lusaila Films, Inc. at Los Angeles and is to be shown at the Gem theatre today is as democratic a little miss as ever played a prank. When the little colored boy who plays in the picture first put foot inside the studio grounds, Mistress Marie looked him over critically, then decided that his "panties" were too ragged for any good use.

"Wait a minute," said she to Director Eugene Moore; "I'll be busy a minute."

Baby Marie disappeared into her dressing room, came forth in a few moments with a little package under her arm and beckoned mysteriously to the "ragged" boy. The two disappeared around the edge of a studio building. General Manager W. A. S. Douglas followed and what he heard was this:

"Here boy, you is too ragged to be in pictures. Your panties is all shot to peaches. You wear these. They're my Sunday ones."

Tonight's program consists of a comedy reel "Her Father's Station," and "A Candy Jag," and another adventure, of "Stingeree."

The Golden Gate Trio is the special attraction at the Princess this afternoon and evening and they offer a varied program of popular and patriotic airs. Complimentary reports have preceded the coming of the three singers, concerning their programs. Bryant Washburn and Virginia Valli have principal parts in "The Fishers," a good story of experiences of a young married couple. Alice Brady appears on Monday in "Betsy Ross," a patriotic play. ## Registering to Start Soon In Rush Co.

Every Woman in County Will be Asked to Sign Card Signifying What Work She Would Volunteer To do in an Emergency—No Obligation Attached. Mrs. Clara Lambert to Head Work Here.

The registration of Rush county women for volunteer service in case they are needed, will begin in several weeks under the supervision of the County Council of Defense. Mrs. Clara Lambert has been appointed by the council to head this work in Rush county and to appoint assistants to make the complete canvass. Concerning the registration of women, the State Council of Defense has sent out the following facts:

In England today the women are volunteers, and there are four million women doing men's work, two million women doing war work. We were told by a member of the British Industrial commission which recently visited Indianapolis, that the skilled women who are doing skilled men's work get the same rate of pay. The woman, who does the same piece work as a man is paid the same as the men. There is a certain percentage of women who work by the day in emergency work and they are paid by the day, a fixed sum on order of the government which varies as they become more useful; they are not being so readily adapted to more general tasks which sometimes makes the man's pay a little more.

American women must be ready when the call comes. Her right to labor and her right to an equal wage cannot be questioned by thinking people. She can best serve in the lines in which she has had experience and training, and the government can throw its protection about her only when it is in position to determine just where she will fit best. This the registration of women will disclose. This is why we are asking Indiana women, to indicate their fitness, their training, their willingness, and why we want these facts registered and catalogued, so that should the call come we can say in chorus—"Here we are, take us." Another reason for having women register is that there is no question that women are the moral force of the country, and it is the greatest encouragement to the heads of our government to know that the women are standing back of them.

There has been so much misunderstanding in regard to the intent of this registration of women that we think it well to make a few explanations. In the first place, it should be understood that the government is not asking any one who cannot afford volunteer service to work without pay, nor is it asking any woman to work her entire time if she has other obligations. It desires such women as will work all or part time, and wants to know whether they expect pay or not. It must be understood that the entire proposition is voluntary. The absence of either federal or state law calling for such a census forces those who are taking the registration to depend upon their ability to make the average woman understand that the registration binds the signer to absolutely nothing except what she is ready to do voluntarily and from patriotic motives. The usual enemy opposition has developed, and such statements as the one which conveys the suggestion that this was a "draft of women," that the government would later require women to perform such tasks as she admitted she was able to perform; that the information put down on the cards would be used by conscription boards as evidence of the woman being able to support herself should her husband be called on for army service; and other equally traitorous and more maliciously false became common. It has been the deception, misrepresentation and ignorance of the women of Indiana that has retarded the success of this highly important work in the past.

contained in a semi-official dispatch from Berlin received here today.

The message emphasized that a rupture of the Brest-Litovsk conference would not change the military or political situation.

German newspapers today all warn against acceptance by the German government of proposals for a conference of socialists at Stockholm, urging that such a conference would be directly under the British government.

London, Jan. 5.—The Russian Bolsheviks have put the imperial German government "between the devil and the deep sea" is the universal view here today.

Germany's next effort to avoid one or the other contingency will be some additional concessions in a desperate effort to prevent final breaking off of negotiations.

## Had Trouble Four or Five Years.

No one appreciates good health like those who are ill. W. J. Furry, R. F. D. 2, Salem, Mo., writes: "I have been bothered with bladder trouble four or five years. It gave me a great deal of pain. I took different medicines, but nothing did me any good until I got Foley's Kidney Pills." Many persons suffer from kidney and bladder trouble when they can be relieved. Backache, dizziness, rheumatic pains, stiff or sore joints and other symptoms yield to Foley's Kidney Pills. F. B. Johnson, Adv.
